

Partnership Allows Members of the American Poolplayers Association to Take Advantage of Discounted Vehicle Pricing.

Being a member of the American Poolplayers Association certainly has its advantages. But what about the added benefits? What about the fact that as a valued member of APA you can lease and drive virtually any make and model you can think of? It's a completely new benefit – one designed exclusively for you.

Leasing a car through Enterprise is just one of the excellent extras we offer APA members and their immediate families.

If you're looking for your dream sports car, a luxury sedan, or something a bit more practical. Then we urge you to start and end your shopping with Enterprise.

Let's review the advantages:

Purchase power

As a recognized leader in the industry, Enterprise frequently buys its cars, SUVs, vans and trucks in large volumes. Enterprise has become the largest purchaser of vehicles in the US. Because of this, they can pass their savings on to you.

Greater vehicle selection

Lease any make, model, new or used, at an affordable price. Their network of contacts guarantees that we feature the best selection of vehicles in the industry.

Flexible funding options

Choose your finance term and conditions. With flexible terms and depreciation, and fixed or variable costs, Enterprise can design a plan that gets the most from your hard-earned dollar.

Maximum resale value

They're experts when it comes to vehicle appraising and anticipating future value. Down the road, when you're ready to resell your vehicle, you'll get maximum value.

Still more advantages...

- Forget about mileage restrictions. There aren't any.
- Receive special discounts on select inventory.
- No more license plate hassle (almost reason enough).
- Take advantage of fleet pricing on new vehicles.
- Utilize our national maintenance and insurance programs.

Yes, indeed! It pays to partner with Enterprise!
